About PAMM sub account?

Vi Viphawee - 2026-03-01 - [Comments \(0\)](#) - [Trading Accounts Guide](#)

A **PAMM (Percentage Allocation Management Module) Sub Account** allows investors to allocate funds to a professional trader (Manager) who trades on their behalf.

□ How does it work?

- Investors deposit funds into their PAMM sub account
 - Funds are allocated to a selected **PAMM Manager**
 - The Manager trades on behalf of all participating investors
 - Profits and losses are distributed proportionally based on each investor's allocation
