Can I trade micro lots?

Vi Viphawee - 2026-03-04 - [Comments \(0\)](#) - [Trading Conditions](#)

Yes. You can trade starting from **0.01 lots**.

A **0.01 lot (micro lot)** equals **1,000 units** of the base currency in Forex trading.

This allows for:

- More precise position sizing
- Better risk management
- Lower capital exposure per trade
