You can generate a detailed trading report directly from your MT4 or MT5 platform.

□ On MT4

To export your trading report:

1. Open the **Terminal** window (Ctrl + T)
 2. Go to the **Account History** tab
 3. Right-click anywhere in the history section
 4. Select **“Save as Report”** or **“Save as Detailed Report”**
 5. Choose the location on your device and save the file
-

□ On MT5

To export your trading report:

1. Open the **Toolbox** window (Ctrl + T)
 2. Go to the **History** tab
 3. Right-click within the history section
 4. Select **“Report”**
 5. Save the file to your desired location

You can adjust the date range (e.g., Last Month, Custom Period, All History) before exporting to generate a report for a specific timeframe.
