□ What is Forex?

Forex (Foreign Exchange) is the global marketplace for trading currencies.

It is where one currency is exchanged for another, such as:

- EUR/USD (Euro vs US Dollar)
- GBP/USD (British Pound vs US Dollar)
- USD/JPY (US Dollar vs Japanese Yen)

□ How does Forex work?

Forex trading involves buying one currency while simultaneously selling another.

Currencies are traded in **pairs**, and traders aim to profit from changes in exchange rates.
