## What is a Provider Offer?

Vi Viphawee - 2026-03-01 - [댓글 \(0\)](#) - [Provider](#)

An **Offer** is the configuration of your strategy. It defines:

- Performance Fee (0%-50%)
- Charging interval (per trade, daily, weekly)
- Public or private visibility
- Optional Management Fee
- Optional Registration Fee

Providers may create multiple Offers for different client groups.
