Is slippage possible?

Vi Viphawee - 2026-03-01 - [Comentários \(0\)](#) - [Trading Conditions](#)

Yes. **Slippage may occur**, particularly during periods of high market volatility.

□ What is Slippage?

Slippage happens when your order is executed at a different price than the one requested. This can occur due to:

- Rapid price movements
- High-impact news events
- Low liquidity conditions
